TEMPLATE KEY

-  CUT LINE
-  RIM TEXT AREA
-  BUTTON FACE / LIVE AREA

TIPS FOR BEST RESULTS

- To add bleed around the edge of the button, extend artwork past second red dotted line.
- Keep rim text bold, sans serif and all caps for best readability.
- Turn off dashed guideline layers before saving but don't delete any layers.
- Outline all fonts and embed all linked files before saving in one of the following file formats:
.pdf .psd .ai .eps .jpg .jpeg .gif .tif .tiff
